LEXINGTON, MASS.

As this folder goes to press, the Blue Eagle of returning prosperity is slowly but surely winging his way through clearing skies, and returning sunshine is causing many home-owners to view their gardens with increasing interest and pleasure. In the Autumn, bulbs must be planted in order that gardens may be full of bloom with the coming of Spring.

There has never been a year since Quarantine 37 went into effect, shutting out foreign-grown bulbs, when Daffodils or Narcissus have been obtainable at prices which make it possible to plant them in liberal quantities for relatively small outlays.

In the preparation of this folder, our entire staff of experienced men have put their heads together, and we have endeavored to give to our clientele all of the help possible in the matter of selecting bulbs by listing those varieties that represent the maximum value for the minimum outlay, and by making special offers that show the buyer a marked saving over straight list prices.

All the bulb varieties listed in the following pages are recommended without qualification. These varieties have over and over again proved

themselves individual winners in public favor. Every bulb we handle is grown either by us or for us by experts. You, as one of our esteemed clientele, have always demanded the finest quality of planting stock, and, therefore, we continue, as in the past, to handle only top-size bulbs.

We ask that you look over this folder with the above points in mind. No list of bulbs for Autumn planting could possibly be more carefully selected, nor do we believe that you can do better than to follow our recommendation in the bulbs that you are to plant. Our recommendation is represented by the varieties listed in this folder.

An early selection of bulbs is always desirable. It insures your getting the varieties you want and it permits of early season planting, which generally results in better bloom than if bulbs are planted very late in the season.

Order now, and when ordering may we ask that you give us your full name and permanent mailing address. This will enable us to have your name correctly entered on our mailing list, a matter of importance both to you and to ourselves.

MISCELLANEOUS BULBS FOR NATURALIZING

All of these bulbous flowers are invaluable for early bloom and look especially well in protected sunny pockets in the rock-garden

CHIONODOXA • Glory-of-the-Snow

Delightful blue-flowering bulbs for borders, banks, and rock-gardens. They resemble the scillas, but the inch-broad flowers are held erect on 5-inch stems instead of drooping. They are extremely permanent. Doz. 100 1000
 Lucilæ. Sky-blue with a white center. \$0 35 \$2 50 \$20 00

ERANTHIS • Winter Aconite

Hyemalis. One of the earliest Spring flowers, sometimes blooming in mid-winter. They may be planted among trees or in the grass in almost any position where the sun may reach them early. Splendid for naturalizing. Yellow flowers. 40 cts. per doz.; \$3.00 per 100; \$25.00 per 1000.

FRITILLARIA

Meleagris (Guinea-Hen Flower). Dwarf, graceful plants with large, bell-shaped flowers striped, mottled, and checked in shades of dull crimson, purple, black, and white. They like a grassy, meadow-like condition, and usually places can be found for them in the wilder portions of the rockery. They do very well, however, in the herbaceous border. Superfine mixed, 60 cts. per doz.; \$4.50 per 100; \$40.00 per 1000.

MUSCARI • Grape Hyacinth

Very hardy bulbs with graceful stems, bearing clusters of bead-like flowers in late Spring. Excellent in grassy places or for the rockery. Doz. 100 1000
 Botryoides album. Pure white. \$0 50 \$3 50 \$30 00
 Botryoides cæruleum. Rich blue. 30 2 25 20 00
 Heavenly Blue. Light blue; strong-growing; larger trusses than the ordinary Grape Hyacinth. 40 3 00 25 00

SNOWDROPS • Galanthus nivalis

The earliest flowers of Spring, blooming before the snow goes. Especially desirable for naturalizing in clumps on sunny banks. Doz. 100 1000
 Single Snowdrop. Early. Fine bulbs. \$0 40 \$3 00 \$25 00
 Double Snowdrop. Extra-fine bulbs. 60 4 50 40 00

SCILLAS • Squills

NUTANS cærulea. The traditional Blue-Bell of the Doz. 100 1000
 English countryside and woodlands. Deep indigo-blue bells on spikes a foot or more high. \$0 40 \$3 00 \$25 00
 Sibirica. Plant about 5 inches high, bearing clusters of brilliant indigo-blue flowers of nodding habit. The bluest of all blue flowers, and a most accommodating rock-garden and naturalizing plant. 40 3 00 25 00

TULIP SPECIES

The range of variety in the Tulip species is practically as wide as in the cultivated varieties. They are all perfectly hardy and can be left in the ground year after year, establishing themselves and occasionally spreading into broad patches. The smaller species, especially *Clusiana*, *Australis*, *Sylvestris*, and others, are particularly striking and permanent residents of the rock-garden, provided they are given a sunny, well-drained slope, and a good depth of soil in which to dig themselves in. Their vivid colors make brave pictures against the dull grays of the rocks in the spring and blend well with the many shades of blue and white displayed by other small bulbs such as those offered on page 3.

MOUNT TACOMA

The finest Double Tulip in existence

Of all the Double Tulips, none is so gigantic, none so unusual and so beautiful as Mount Tacoma. A group of a dozen bulbs gives the effect of a large peony clump. When the buds show color, feed liquid manure to produce blooms of stupendous size.

\$1.60 per doz.; \$12.00 per 100

FANTASTIC PARROT TULIPS

These are the freaks of the Tulip family. The very large buds usually twist and turn in a way to suggest the head and beak of a parrot.

FANTASY. An enormous, new variety derived from Clara Butt. Has shades of flesh-pink, shell-pink, scarlet and white, marbled and mottled with green on the outside. Petals are feathered and fringed fantastically and the stems are strong. It always attracts a great deal of favorable attention.....	Doz.	100
Gemma. A large white variety tinged with pink; bright yellow center. Showy.....	\$1 75	\$12 00
Sundew. This is less Parrot and more Darwin. It is of perfect Darwin shape, but the petals carry a fringed edge or crest which is most unusual, a very charming and worthwhile new variety. Bright red with a blue-black center.....	1 25	8 50
MIXTURE. A jolly mixture of many varieties and colors which will afford much amusement and beauty of an unusual kind.....	85	6 00

BUNCH-FLOWERED TULIP

A new race with many flowers on a stem, very interesting and a fine garden Tulip.

Monsieur Mottet. Creamy white, tinged pink. \$1.00 per doz.; \$7.00 per 100.

REMBRANDT TULIPS

A relatively new race of Tulips resembling the Rose Byblossoms of the Old Dutch Class. They are "broken" or "feathered" forms of the more modern Darwin varieties and display a bewildering variation in shades of red, violet, cream, and white curiously blotched and striped in fantastic designs.

Mixture of all colors, \$1.00 per doz.; \$7.00 per 100.

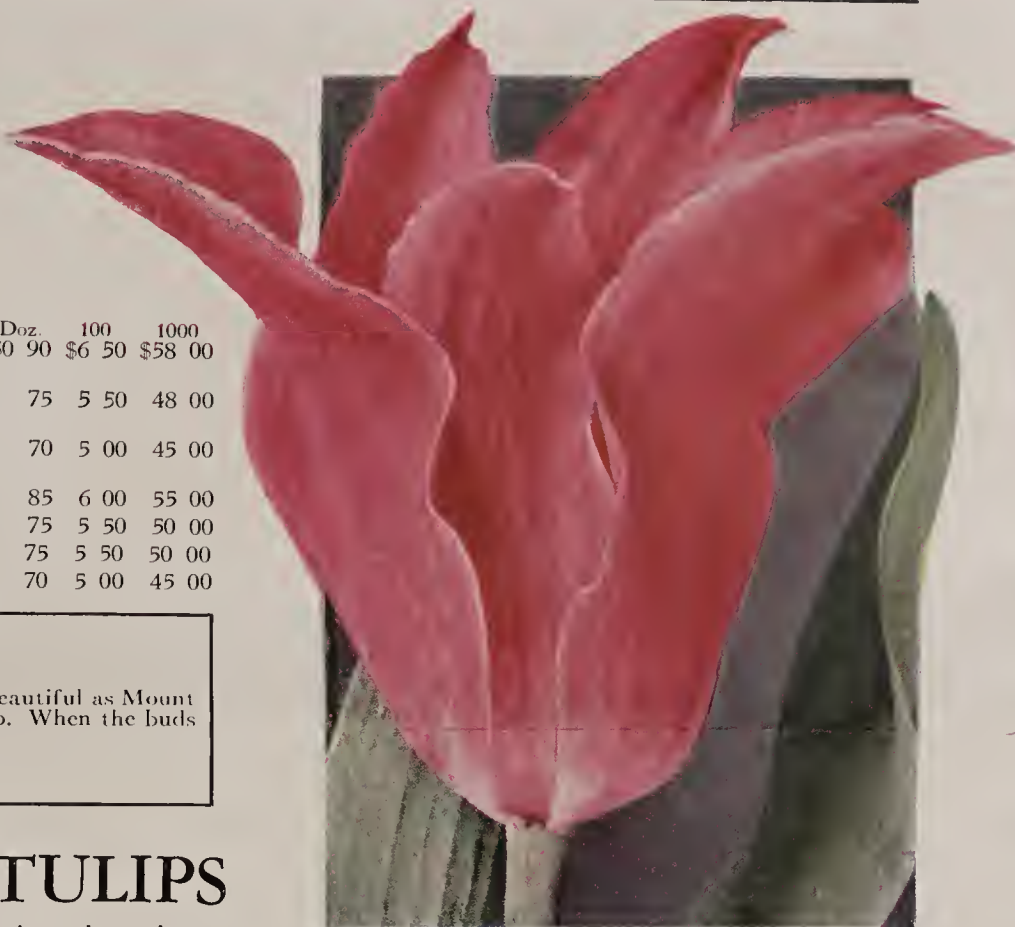

CROCUS SPECIES, Autumn-flowering

There are a number of delightful Crocuses which come into bloom in September and October, if planted in August, and will continue to grow and bloom in the same place at the same time year after year. They force very easily, and charming low table decorations can be made by planting them in shallow bowls in either our prepared bulb fibre or pebbles.

Speciosus. Bright violet-blue, prettily veined; anthers orange-red; throat yellow. Large, handsome, and showy. One of the most beautiful.....	Doz.	100
Zonatus. Beautiful soft rose-lilac; center yellow with orange zone.....	\$0 40	\$3 00
Mixed. For naturalizing in grass, wild gardens, rock-gardens, etc.....	40	3 00

BRECK'S TOPNOTCH CROCUS MIXTURE

SIRENE. A LILY TULIP

Sirene Tulip

Lily form. Distinct among Tulips for the exaggerated lily shape of its cup, Sirene is also unique in the clear deep rose-color of its narrow, fluted petals. It is the type by which all lily-form Tulips are judged, and is a distinct and stunning incident in the garden. Plants will grow 15 to 24 inches high, depending upon site and richness of soil, and their blooms are at their best about the middle of the Tulip season. The stock has never been plentiful but it is now so reasonably priced that nobody need forego the pleasure of having this charming variety.

75 cts. per doz.; \$5.00 per 100; \$45.00 per 1000

OLD DUTCH TULIPS

Of the two kinds—the Byblossoms have a white base feathered or flamed red in Rose Byblossoms, and purple in Violet Byblossoms; and the Bizarres in which the ground color is yellow and the flames may be shades of either red, purple, rose, blue, or violet.

BYBLOSSOMS

Choice Mixture of All Shades. 85 cts. per doz.; \$6.00 per 100; \$55.00 per 1000.

BIZARRES

Extra Mixture of the True Bizarre Varieties. 85 cts. per doz.; \$6.00 per 100; \$55.00 per 1000.

CROCUSES, Spring-flowering

One of the earliest flowers of spring, the Crocus is also one of the most graceful and lovely. Planted in September and October in clumps and masses, they are perfectly hardy and may remain in the ground indefinitely. They are also easily grown in pots and pans.

PAPER-WHITE

GRAND SOLEIL D'OR

PAPER-WHITE and GRAND SOLEIL D'OR

FOR INDOOR PLANTING ONLY

These attractive, deliciously scented flowers are extremely easy to have throughout the winter months. Use a shallow vessel of pottery, glass, or metal; fill it with clean stones or pebbles; nestle the bulbs on the top of them and fill with water almost to the base of the bulbs. After keeping them in a cool, dark place for several weeks, bring them to the light and keep them in a cool room until the buds begin to open. By bringing bowls of Paper-Whites to the light at different times, a continuous succession of flowers may be had throughout the winter. The flowers are exquisitely dainty in texture and form, and a small bowl of several blooming spikes will scent the whole room. As these bulbs are now being grown in America and take longer to ripen on, we strongly advise purchasers to avoid early forcing. Bulbs started from late October on will give much better forcing results.

Early Paper-White Grandiflora. The earliest, largest, and best type of the Paper-White for forcing. Pure white. Extra-large bulbs, 60 cts. per doz.; \$4.50 per 100; \$40 per 1000. Mammoth bulbs, 85 cts. per doz.; \$6.50 per 100; \$60 per 1000.

Grand Soleil d'Or. Yellow with orange cup; large flower-trusses. Splendid for forcing. \$2 per doz.; \$14 per 100.

PEBBLES, BULB FIBER, and FANCY BOWLS

The growing of bulbs in Pebbles or Fiber for house decoration, especially the several varieties of Polyanthus Narcissus, has become so universal that we are carrying a special line of the more inexpensive Ornamental Dishes and Bowls for indoor bulb-culture.

We also carry specially selected Bulb Fiber and Pebbles as this method of growing bulbs is becoming increasingly popular.

BULB FIBER. Ot. 15 cts.; pk. 75 cts.; bus. \$2.50.

PEARL CHIPS, WHITE. Lb. 10 cts.; 100 lbs. \$8.

PEBBLES. Lb. 5 cts.; 5 lbs. 20 cts.; 100 lbs. \$2.50.

POTTING SOIL, PREPARED. Pk. 30 cts.; bus. \$1; 3-bus. bag \$2.75.

LILIUM CANDIDUM

LILIUM CANDIDUM

(The Madonna or Ascension Lily)

Beautiful, delicately fragrant blooms of pure waxy white, borne during June and July on strong plants 3 to 5 feet in height. Dormant bulbs are available from August through the autumn months. The earlier planted, the better, because it makes a rosette of leaves in the fall which remains evergreen until spring. Plant shallow—about 2 inches beneath the surface.

Extra-Large Bulbs. 35 cts. each; \$3.50 per doz.; \$25 per 100.

Mammoth Bulbs. 40 cts. each; \$4 per doz.; \$30 per 100.

Jumbo Bulbs. 50 cts. each; \$5 per doz.; \$40 per 100.

THE IDEAL CHRISTMAS GIFT

LIBERTY BELL

LILY OF THE VALLEY

TRADE-MARK REGISTERED

Breck's Standard Bowls of "Liberty Bells"

Solve the problem of having a continuous supply of Lilies-of-the-Valley throughout the entire autumn and winter. These Standard Bowls are ideal for Christmas, birthday and Easter gifts, or for friends who are sick. Unlike cut-flowers or blooming plants, they can be shipped at any time, regardless of freezing weather. Breck's Standard Bowls have a refill container (a special feature of our own), and, therefore, when the first pips received are through flowering, all that is necessary to keep constant bloom in your home is to order refills direct from us.

Order blanks for refills accompany every shipment, and many customers order refills in lots of 3, 4, 5, and 6, for shipment at stated intervals. Standard Bowls of "Liberty Bells," planted and ready to grow, are packed in special shipping cartons, and, at the prices quoted below, Parcel Post charges are paid east of the Mississippi River. Standard Bowls with the refill container may be had in four colors: matt green, mauve-lavender, blue, and rose. Full cultural directions are packed with every shipment.

Standard Bowls complete, \$1.75 postpaid. Standard Refills, 90 cts. postpaid
